

● ● ● VISUAL STYLE GUIDE

cyclo

A graphic language for a local-first agent
runtime — Italian modernism, ca. 1970.

01 PRINCIPI — THE IDEA

Joyful, not corporate

Warm paper, saturated flat colour, playful geometry. Swiss discipline in the grid; Italian warmth in the picture.

The cycle is the mark

Every graphic derives from orbit and iteration — spirals, rings, dots in progression. Never a literal gear or arrow.

Asymmetry with tension

Type anchors one corner; the graphic mass sits opposite. Generous, deliberate empty paper between them.

Flat, always

No gradients, no shadows, no bevels, no glow. Pure fills as if screen-printed in four passes.

02 COLORE — THE FOUR-PASS PALETTE

Rosso

#D8402E

Primary accent. Headlines, one planet, key phrase.

Blu

#2A5CAA

Counterweight. The largest scattered form.

Giallo

#EFB02C

Brightener. Never for text — insufficient contrast.

Verde

#3E7C5A

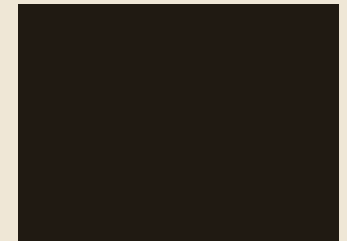

The fourth pass. Sparing — smallest area of the four.

Carta

#EFE7D6

Ground. Warm stock, never pure white.

Inchiostro

#201A12

Type and rules. Warm black, never #000.

Rotation, not mixture. Dot fields cycle the four hues in fixed order — rosso, blu, giallo, verde — so no single colour dominates. Ink joins the rotation only in dense fields.

Inverted ground. On ink (#201A12) the paper becomes the type colour and all four hues hold unchanged. Do not lighten them for dark mode.

WORDMARK
150–176 / 700

cyclo

CLAIM
31 / 500

Agentic systems, in a Git loop.

SECTION HEAD
15 / 700 / .2EM

NORME GRAFICHE

BODY
13.5 / 400 / 1.5

A team is ordinary Git content — a roster, role prompts, and an optional shared protocol. Attach it to any project directory and submit a task.

SPEC / FEET
11–12 / 600 /
.2EM

V0.1.0 · STABLE · MIT · LINUX

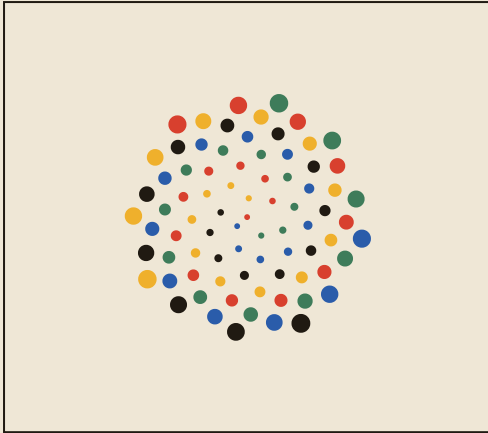

REGOLE

Wordmark is always lowercase. Never capitalise, never letterspace it.

Display type gets negative tracking (–0.06em at wordmark size). Small caps type gets positive (0.16–0.24em).

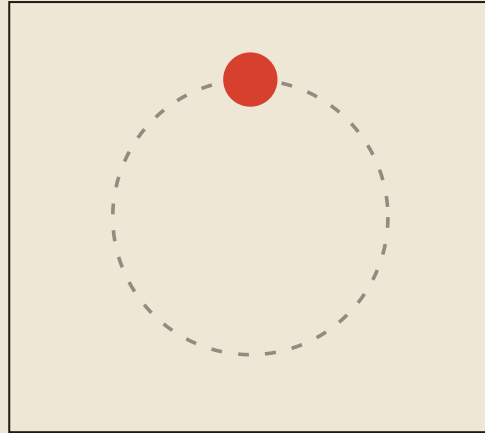

Two weights only: 700 and 500/400. No italics, no light weights, no condensed cuts.

Weight and size carry hierarchy — never colour alone.

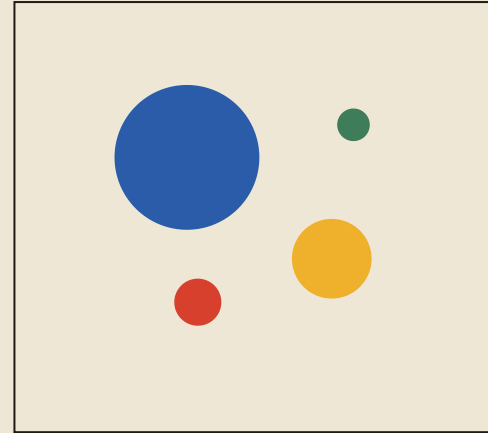

A · La galassia

Phyllotaxis spiral (137.5°). Radii grow outward; hues rotate. The hero element — one per composition.

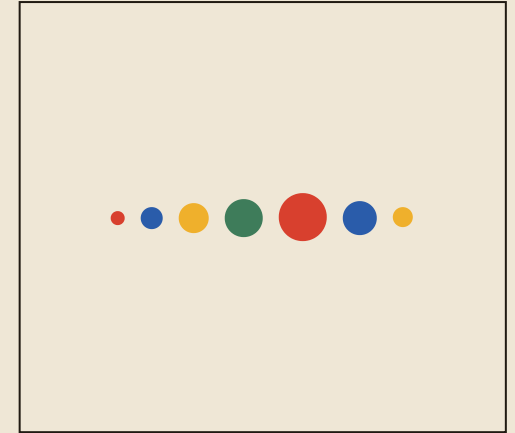

B · L'orbita

Dashed ring, 2px, 6/9 dash, 45% ink. Always carries exactly one solid planet.

C · I pianeti

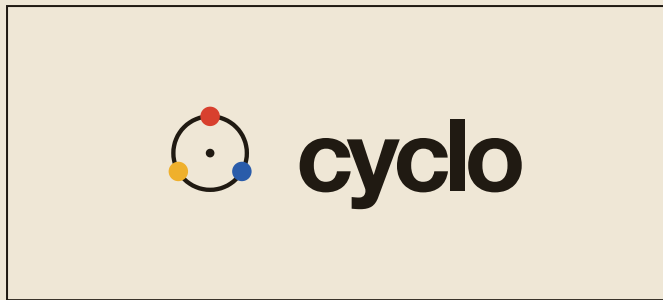

Flat circles at descending scale, scattered off-grid into empty paper. Four maximum.

D · Il fregio

Rhythmic dot frieze — swells then falls. A divider or footer band, never decoration alone.

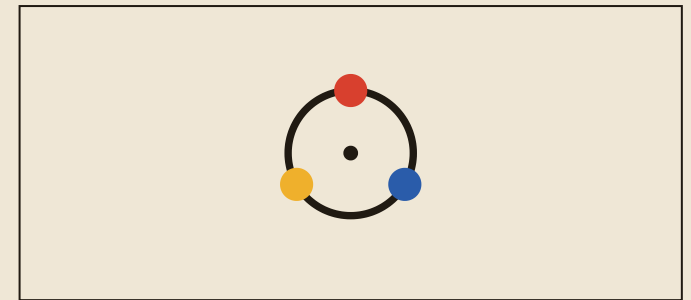

05 MARCHIO — LOCKUPS

A · PRIMARIO

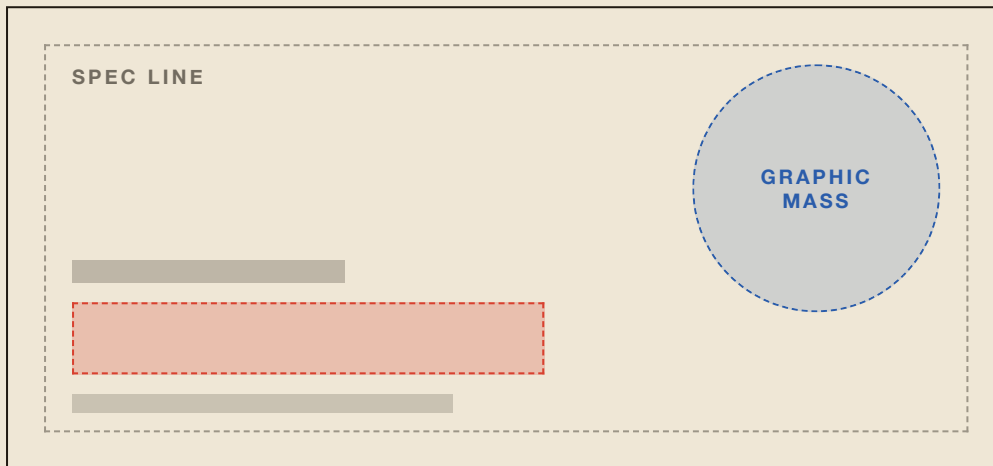

B · NEGATIVO

C · SIMBOLO (FAVICON, AVATAR)

Clear space equals the symbol's ring diameter on all four sides. **Minimum size** 24px for the symbol, 90px wide for the horizontal lockup. Never re-space the mark and wordmark, never box them, never place either over a dot field.

06 IMPAGINAZIONE — COMPOSITION

Diagonal tension: spec line top-left, graphic mass upper-right, wordmark block lower-left, feet along the base. Margin 4% of canvas width.

One graphic mass per composition

A single galaxy or orbit cluster. Two competing masses kill the tension.

Let the graphic bleed

The dot field may run off the edge. Type never does — it respects the margin absolutely.

Empty paper is structure

At least a third of the field stays bare. Do not fill it with dots or copy.

Rules are hierarchy

2px ink rule opens a section; 1px at 25–30% divides within it. Nothing between.

● SÌ

Flat fills, warm paper, four rotating hues.

Circles and rings as the only figurative vocabulary.

Big tight lowercase Helvetica against small letterspaced caps.

Asymmetric balance with a third of the field left bare.

Dot fields bleeding off the edge of the canvas.

● NO

Gradients, drop shadows, glows, glassmorphism.

Pure white grounds or pure black type.

Gears, robots, arrows, brains, circuit boards, emoji.

Centred symmetrical layouts, or rounded "card" containers.

A fifth colour, a second typeface, or any italic.
